

## LED-STEP

LED-STEP is subtle, low-power light fitting that reliably delivers the light needed for the safe use of stairs, and it is also used for floor-level lighting. It can also be used for always-on corridor and night lighting.

Luminaire can be surface mounted or flush-mounted into an electrical box. Luminaire is IP20 rated.

Typical applications of LED-STEP include various health and social care providers, including health centres, hospitals and nursing homes.
